

Therma-Tru expands offering of Smooth-Star[®] Shaker-style doors and sidelites

MAUMEE, OHIO – Therma-Tru[®] Doors will expand its Smooth-Star Shaker-style door offering, featuring the simplicity and craftsmanship typical of the Shaker movement.

The expanded product line offers more options to fit a homeowner's personal taste, including additional opaque doors and a new flat profile lite frame with decorative glass options.

“Our new Smooth-Star Shaker-style one- and two-panel doors deliver a contemporary look while maintaining the minimalistic elements of the traditional Shaker style,” said Donna Contat, director of product management at Therma-Tru Corp.

Smooth-Star Shaker-style doors are available in both 6'8" and 8'0" heights, with a smooth, paintable finish that allows the homeowner to choose the color that perfectly reflects their style. Decorative and privacy and textured glass options are also available.

The line complements a diverse blend of architectural elements and can create a consistent look to connect the interior and exterior of the home. Ideal for front entries, side and back doors, the Smooth-Star Shaker-style takes design cues from Farmhouse, Prairie, Modern and Coastal Cottage home styles. They create a casual and welcoming entryway that celebrates heritage but balances artisan and modern influences.
